

trouble free vinyl floors

Your flooring

Barlinek Next Step is an absolute novelty on the vinyl panel market; its appearance and ideal structure are the result of combining our experience in the production of wooden floors with the innovative digital technology.

A pair of light pink, suede-like slippers is placed on a light-colored wooden floor. To the left of the slippers is a large, crumpled pile of light pink fabric, possibly a blanket or a piece of clothing. The text "what sets us apart!" is overlaid in white, with a green horizontal line underlining the word "what".

what sets us
apart!

the latest DLE+ surface-structuring technology

we combine advanced technology with the beauty of nature so that you can not only see but also feel the difference; thanks to the brushing process, the surface of our floors has a texture that can be felt to the touch, perfectly harmonising with the wood grain; this combination creates a **WOW effect!**

super HD digital printing technology

with Barlinek boards, we create unique wood patterns that attract everyone's attention. Next Step offers a perfect reproduction of wood shades and structure — without compromise. Thanks to the bevelled edges, the beauty of nature enters your home in a hyper-realistic style.

durable – class 34

Next Step is a guarantee of durability; thanks to the highest class of usability, our panels guarantee reliability and durability to survive even the toughest day

100% waterproof

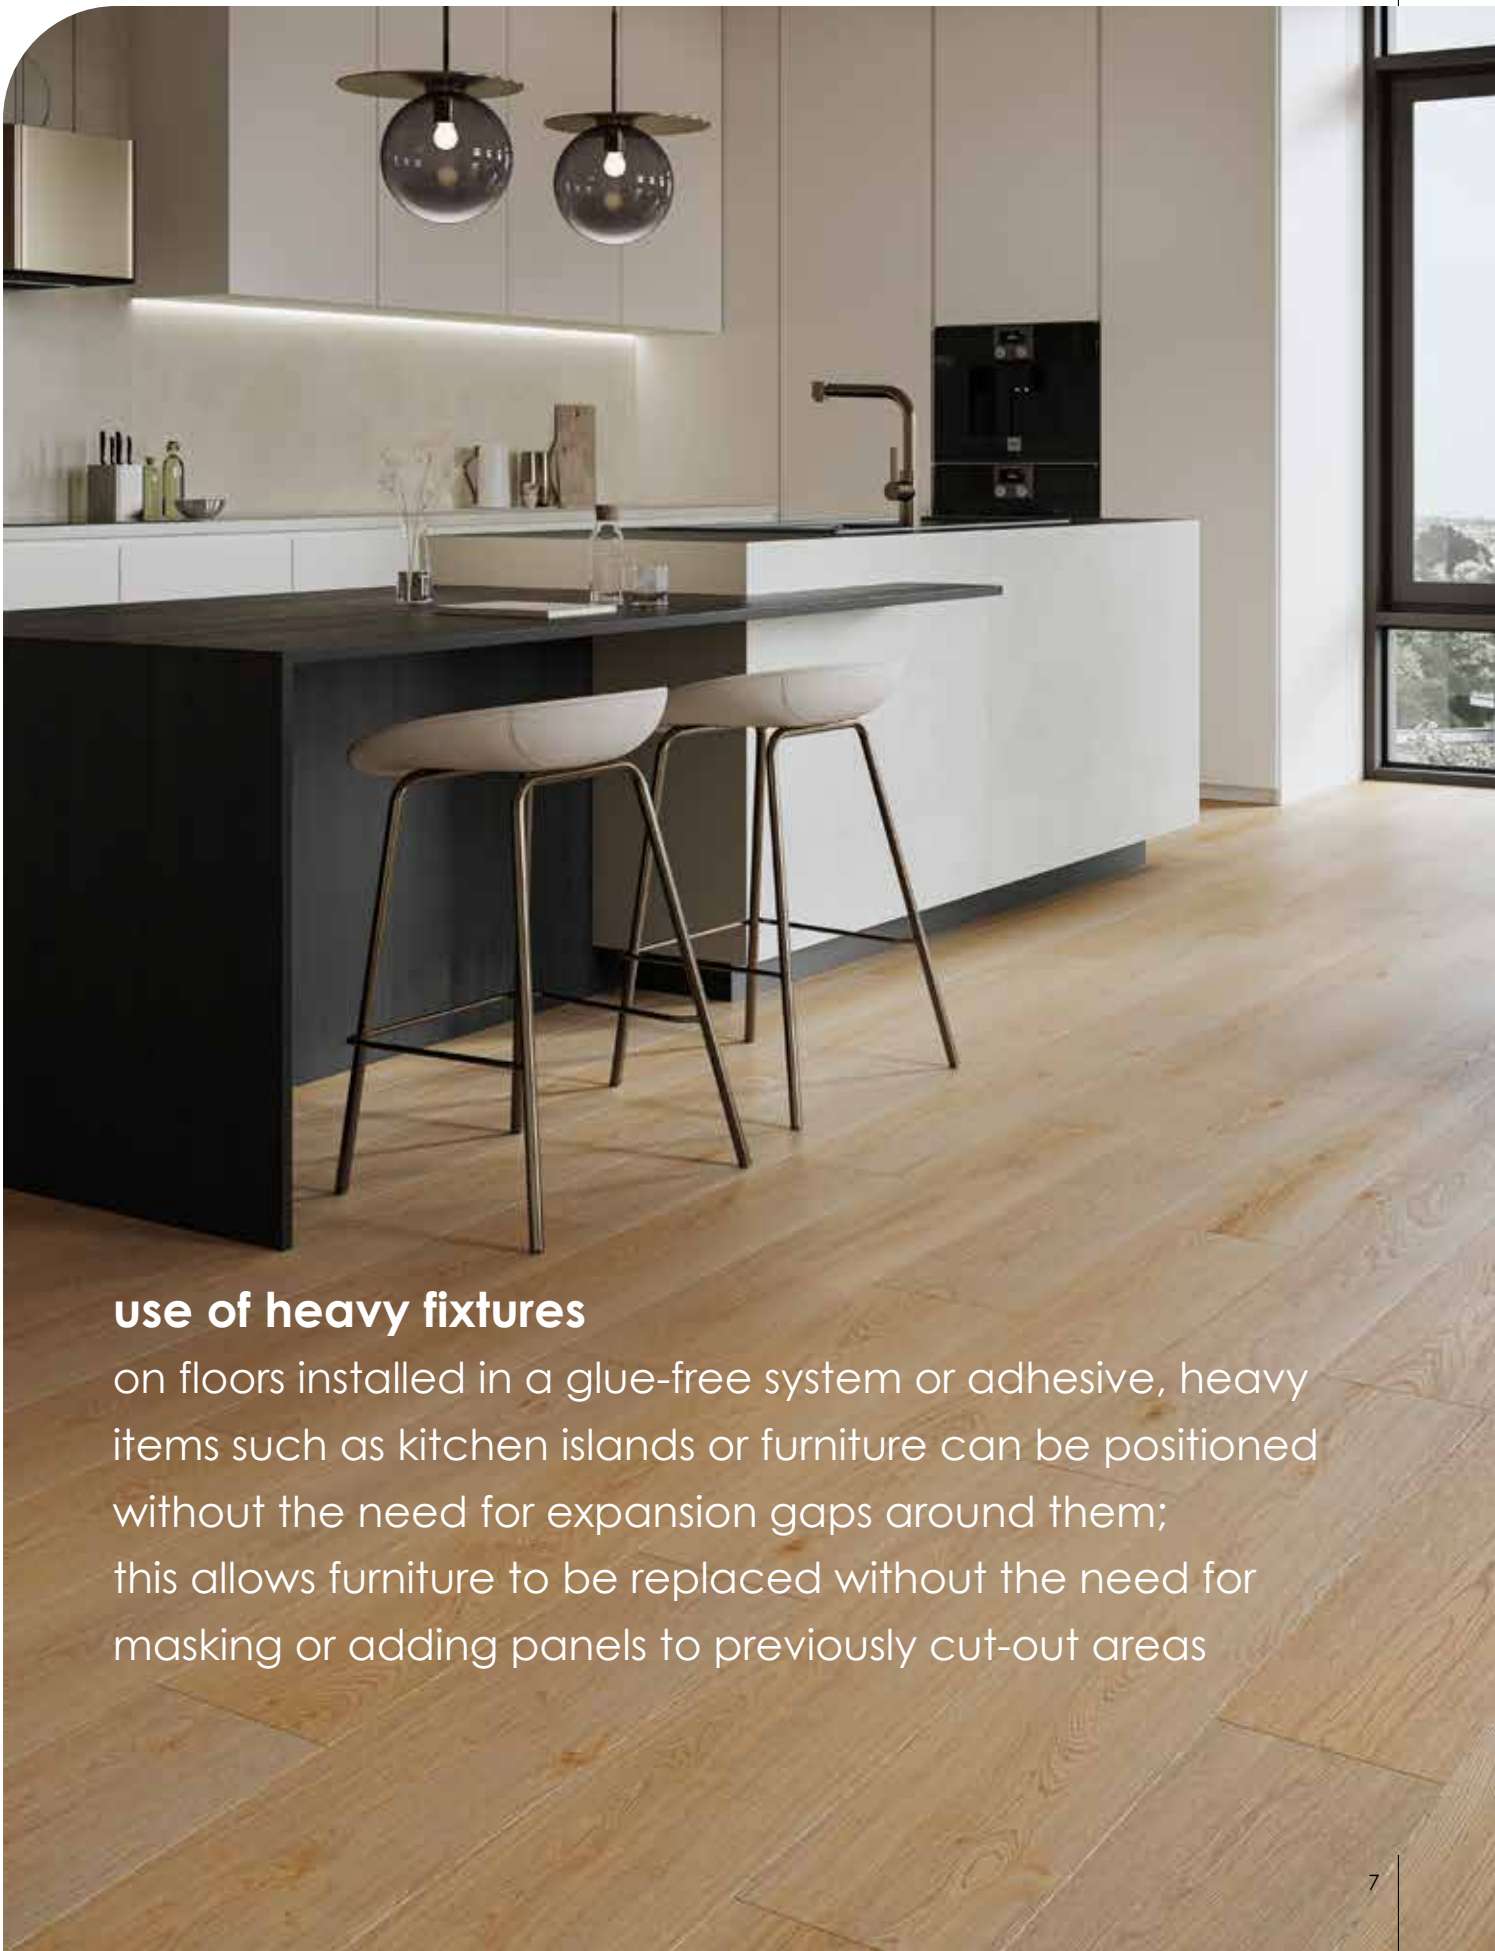

install them in your bathroom, kitchen and hallway – no worries! Next Step is a waterproof vinyl flooring with watertight locks, which is the perfect solution for you - combining style with reliability

A lifestyle photograph of a light-colored wooden floor. In the upper left, a piece of beige fabric is draped. In the center, a small black jar contains a lit candle with a warm glow. To the right, a magazine titled 'LIVING' with the number '16' in the top right corner is open, showing a colorful interior design spread. The text 'the only one on the market' is overlaid in white, with a green horizontal line underlining the word 'the'.

the only one on the market

heating mats

our floors can be installed in a floating system on underfloor heating: water, electric and on heating mats; Next Step Barlinek floors have very high thermal conductivity and very low thermal resistance, which ensures high heating efficiency

use of heavy fixtures

on floors installed in a glue-free system or adhesive, heavy items such as kitchen islands or furniture can be positioned without the need for expansion gaps around them; this allows furniture to be replaced without the need for masking or adding panels to previously cut-out areas

aesthetic values

true to nature

we know wood like no one else; thanks to advanced technology and our experience we are able to reproduce in detail the shades and structure of wood perfectly matched to its natural grain

new DLE+ technology

when manufacturing Next Step floors, we use the latest digital printing technology which allows us to achieve a brushed effect on the surface of our panels, resembling the natural structure of wood

**ultramatt varnish**

provides a subtle, natural look perfectly replicating real wood, creating an elegant and modern interior

**transparent bevels**

naturally looking cut edges with a clear wood pattern, perfectly reproduced as in wooden floors

**deep structure**

a noticeable brushed wood effect that emphasises the natural grain and gives an authentic look

practical advantages

waterproof

Next Step floors are protected against water and moisture; additional protection is provided by a waterproof lock connecting individual panels

durable – up to class 34

Next Step floors guarantees the highest durability, resistance to microscratches, abrasion and mechanical impact

stable

Next Step floors are suitable for all rooms and do not require expansion gaps on areas up to 225 m²

quiet in use

modern Barlinek vinyl floors guarantee excellent sound insulation

stain and dirt resistant

Next Step floors are covered with a varnish system resistant to everyday use

underfloor heating

our floors can be installed on water or electric underfloor heating no glue required, including on heating mats

easy renovation

Next Step floors can be laid on existing floors without the need to remove them

high load tolerance

kitchen islands and heavy furniture can be placed **on the floor!**

eco-friendly advantages

all waste generated during the production
process is reused – nothing is wasted

25-year warranty

vinyl panels allow you to enjoy them for many years, just like on the first day, and eliminate all costs associated with possible replacement or repairs

safe

the materials used to manufacture the panels are hypoallergenic, which means they eliminate potential sources of allergens; Barlinek floors are therefore safe for all household members, including people with allergies

refined to perfection

top layer
resistant to stains, scratches
and abrasion

DLE+ system
brushed texture
with a natural wood look

Denscore PRO
mineral core manufactured by extruding calcium carbonate and
additives; thickness: up **to 4,5 mm**

wear layer

transparent and completely invisible wear layer of thickness up to 0,50 mm; four-sided micro bevel

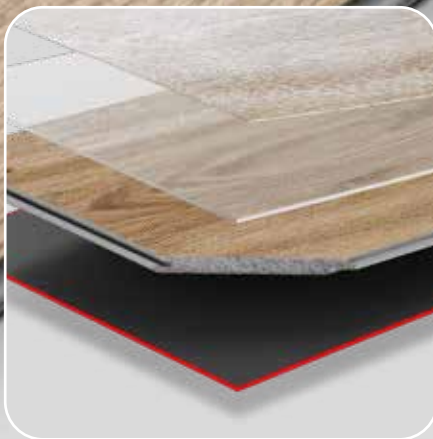

digital printing in **superHD** quality

I4F glueless lock

durable and fully waterproof, reliable click-in installation system

A large, vertical rectangular area on the right side of the page features a detailed wood-grain texture. The wood is light brown with darker, wavy lines representing the grain. The texture is consistent throughout this area.

for family gatherings

when building relationships with your family,
it's good to know that our floors can withstand
even the craziest fun; from cooking together
to dance marathons – Next Step floors are ready
to become the stage for your greatest adventures

Antic Oak
